FAMILY PHOTO SHOOTING PREPARATION

Cloths:

- Simple colors (good is white, dark blue, light blue, dark brown, light brown, light green, dark green, grey – all tones, black but make sure it's very clean, creamy)
- Try to avoid too many patterns and too strong colors such as red, bright pink etc.
- Stripes & checked tops are ok; avoid any clear shapes
- No short skirt or shorts
- Shoes closed (no flip-flops especially in combination with long trousers)
- Try to bring at least 3-4 different tops, which you can combine with trousers or skirt

If you decide to go for e.g. stripes, try to keep one (or not conflicting) style of dress for each member of family. **Most important is that you as a family will match!**

Other:

If you have nice **blanket**, which you do not mind to take outside you can bring it.

Nice **toys** for kids will be helpful (ball, kite or teddy bear etc.).

Make up & Hair: Professional make-up artist and hair stylist is recommended but not necessary for family shoot.

For the hair it can be done in hair salon. Otherwise follow these instructions:

- No ponytail
- Bring your comb, brush, rubber band (same as color of your hair) for fixation
- Come with open hair, we will make few shots like this and later make a ponytail

If you do make up yourself, you can do the same as you normally wear, but you can use a stronger up to 80%. If you are not sure, you can follow this instruction:

- Simple and natural
- Not too much and no strong colors – keep it simple
- No strong lipstick and no lip-gloss
- Use foundation and powder to fix
- Light blush
- Mascara

Bring your own comb and fixing powder with you.

Preparation:

- No color lack on nails, also check nails of kids
- Go to bed early
- Wash your hair night before
- Not too much jewelry unless it's your style

Since the photo shooting is often outside don't forget about mosquito protection.

YOU DO NOT HAVE TO BRING ALL THE CLOTHS IN ALL COLOURS, THIS IS ONLY A GUIDE.
